Assessment Details

Assessment 1: Assessing understandings of Practice – Assessment Task Design and Evaluation

Design a formal assessment task that requires students to demonstrate their understanding of practice in the development of their body of work. In addition to the Body of work in progress, the assessment must also include the VAPD as a record of research, investigations into subject matter, development of technical skills and process, reflection and directions for further development and refinement.

1. Provide a rationale (800-1000 words) which explains and justifies your choices and addresses how the task allows students to demonstrate their application of knowledge, understanding and critical judgement acquired through experience and provides them with the possibility to establish intentions as artists. You must cite relevant research including the syllabus and relevant NESA documents in your rationale.
2. You are to create an assessment task using the template provided on Moodle. It must include:
 - Appropriate Stage 6 Artmaking outcomes from the syllabus
 - Demonstrate consideration of school-based assessment schedule/timing (e.g. due date)
 - Marks allocated for all components including total
 - Provide a task description for each component/part that is clear, concise and references the task requirements for students (e.g. Part A, Part B)
 - Identify assessment criteria (rubric) for each component of the task
 - Design a marking criteria that reflects the parameters of the task. You must include a separate marking criteria for each component/part. Ensure marking range is appropriate and the criteria reflects relevant levels of achievement. Note: appropriate school-based marking guidelines should be developed. Use of external HSC marking guidelines is not appropriate.

The task should adhere to the requirements outlined in the NESA Assessment and Reporting in Visual Arts Stage 6 document for school-based assessment.

Assessment 2: Essay - Assessment and pedagogical practice in the development of the body of work

Consider how strategies in assessment and pedagogy can be used by teachers to support students to develop their role as an artist in the development of the body of work. Include your findings regarding the implications of your research for teaching. Ensure that you include appropriate references. Your response should be 3000 words.

You must respond to the following scenario in your response:

Kate is in your HSC Visual Arts class. You taught her in Yr 11, however she did not do Visual Arts in Stage 5, which means she has not experienced a significant range of Artmaking approaches and Art Criticism and Art History knowledge, understanding and skills. In Yr 11 Kate demonstrated an area of strength in her ability to develop conceptual meaning and ideas in her practice. She has shown no particular interest or dominant strength in any one expressive form over another, however has some success and experience in charcoal drawing portraiture and photography. Kate is starting to lose focus in the middle of Term 4 Yr 12 (first term of Yr 12). She has brainstormed many ideas about family and identity in her VAPD using the Subjective and Cultural Frame, however she is struggling to develop her material practice.
