Academic Honesty and Plagiarism

Plagiarism is using the words or ideas of others and presenting them as your own. It can take many forms, from deliberate cheating to accidentally copying from a source without acknowledgement.

UNSW groups plagiarism into the following categories:

Copying. Using the same or very similar words to the original text or idea without acknowledging the source or using quotation marks. This also applies to images, art and design projects, as well as presentations where someone presents another's ideas or words without credit.

Inappropriate paraphrasing. Changing a few words and phrases while mostly retaining the original structure and/or progression of ideas of the original, and information without acknowledgement. This also applies in presentations where someone paraphrases another's ideas or words without credit and to piece together quotes and paraphrases into a new whole, without appropriate referencing.

Collusion. Working with others but passing off the work as a person's individual work. Collusion also includes providing your work to another student before the due date, or for the purpose of them plagiarising at any time, paying another person to produce an academic task, stealing or acquiring another person's academic work and copying it, or borrowing another person's work or seeking payment, for completing academic work.

Inappropriate citation. Citing sources which have not been read, without acknowledging the "secondary source" from which knowledge of them has been obtained.

Duplication or self-plagiarism. Submitting your own work, in whole or in part, where this has previously been prepared or submitted for another assessment or course at UNSW or another institution.

Correct referencing practices.

- Paraphrasing, summarising, essay writing and time management
- Appropriate use of and attribution for a range of materials in...
