

# Standard MPsych(Clin) Progression Plan

The standard progression plan provides an overview of the typical workload across the 2-year MPsych(Clin) program. There would be some changes to these hours from year-to-year although the plan provides a good estimate of the contact hours associated with the various stages of the program.

Please note that given the professional nature of the program, classes and placement work will occur outside the standard university term dates (during term break, O week and flex week).

All program hours stated are estimates and includes only class and placement hours. These hours do NOT include time for completion of course assignments, reading, out-of-class tasks, client work preparation, report writing and other placement related admin duties.

Any questions associated with the progression plan should be directed to Dr Chien Gooi (Program Director).

---

9am-12noon PSYC7212  
ACCP1 (+ some Wed)

4-7pm PSYC7001 Psych  
Assessment

PSYC7223 PEP1 workshops  
(half or full days)
