2.1 Course summary

Advances in Polymer Synthesis:

Polymer Physics and Bulk Properties

Functional polymers:

Lab component:

2.2 Course aims

3. Strategies and approaches to learning

3.1 Learning and teaching activities

Students are actively engaged in the learning process.

Effective learning is supported by a climate of inquiry where students feel appropriately challenged.

Learning is more effective when students' prior experience and knowledge are recognised and built on.

Students become more engaged in the learning process if they can see the relevance of their studies to professional and disciplinary contexts

Lectures:

Labs:

3.2 Expectations of students

4. Course schedule and structure

Week	Topics	Activity
