(half or full days)

CLINIC

PEP1 PSYC7223

In clinic: Observation requires
flexible schedule (from mid-
March) + weekly clinic
meetings Wed 2-4.30pm

Standard MPsych(Clin)/PhD Progression Plan

The standard progression plan provides an overview of the typical workload across the 4-year combined program. There would be some changes to these hours from year-to-year although the plan provides a good estimate of the contact hours associated with the various stages of the program.

Please note that given the professional nature of the program, classes and placement work will occur outside the standard university term dates (during term break, O week and flex week).

All program hours stated are estimates and includes only class and placement hours. These hours do NOT include time for completion of course assignments, reading, out-of-class tasks, client work preparation, report writing and other placement related admin duties.

Any questions associated with the progression plan should be directed to the program coordinator.
